## Press Release

### **Shui On Group Pledges HK\$7 Million Donation Mobilises 100 Volunteer Construction Workforce to Support Resettlement of Wang Fuk Court Residents Through Social Welfare Partner Organisations**

[11 December 2025, Hong Kong] - The devastating fire at Wang Fuk Court in Tai Po has deeply saddened all Shui On Group colleagues, a tragedy that left residents homeless and in urgent need of new homes. Shui On Group extends our heartfelt condolences to the residents, their families and all those affected. The Group will make a total donation of HK\$7 million, with HK\$5 million donated by Shui On Land Limited, alongside HK\$2 million from SOCAM Development Limited. With SOCAM's resources in construction and building maintenance in Hong Kong, we will convene a group of 100 construction volunteers across our construction industry partners to provide free resettling building services through social welfare organisations operating the temporary housing, to support affected residents as they transition to their new homes in the short term. These services will include painting, plastering, furniture installation, electrical and plumbing repair services etc. The donation from Shui On Land and SOCAM will cover essential materials and related expenditures to enable these services, with no deductions for administration and labour costs.

Shui On Group has long been committed to creating sustainable communities that foster inclusion and a strong sense of belonging. While the residents of Wang Fuk Court transition to their new temporary homes, we hope we can play a small role through providing practical services to address residents' immediate living needs and ease their transition to a new community. We are very grateful that our partners stand in solidarity and show their kindness in these times of adversity to support the community.

Together, Shui On Group stands in compassion and solidarity with the residents of Wang Fuk Court, to help pave the road to the rebuilding and recovery of the community.
